

Github Link: https://github.com/Linga-sravani/OCR_Project

Step 1: We need to set up the Environment and Install Required Software

Step 2: Install Required Libraries and Set Up Azure Computer Vision API

Step 3: Implement OCR Functionality

Step 4: Create and integrate Web UI (Flask)

Step 5: Run python3 app.py then we will see '<http://127.0.0.1:5000>'. Click on this and we get as follows:
